This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

If any one should question why the Indiana State Library issues a printed catalog, the inquirer should be satisfied with the explanation that it is a lending library and catalogs need be accessible to the people of the State that they may know what books they may secure. The book form is cheaper than duplicate card catalogs.

We are not unfamiliar with the oft-repeated remark "that a printed catalog is out of date as soon as printed." So also the card catalog is out of date whenever a new book arrives, but we do not discard the card catalog for this reason.

The catalog will remain adequate for its contents so long as these books remain, and it is our plan to issue at frequent intervals supplements to this publication for distribution to our borrowers, and thus to keep it up to date as nearly as is possible for a printed catalog

W. E. HENRY,
Librarian.

Lending Department, Established 1903.

Section 9, Chapter 80, Acts 1903.

SECTION 9. Such books belonging to the State Library, other than reference books, as could be readily replaced in case of loss, may be loaned to any citizen of the State, who shall place such guarantee with the State Librarian, for the safe return of the same, as the State Library Board may demand, and who shall pay the cost of transportation of the book or books to and from the borrower. *Provided*, That no book, that could not be readily replaced in case of loss, shall be removed from the State Library except by State officials, and by them only in pursuit of their official duty.

Rules and Regulations Governing the Lending of Books.

All citizens of Indiana will be permitted to draw books from the Indiana State Library in accordance with the following rules:

1. All State officers elected by the people or appointed by the Governor may draw books for a period of two weeks by giving receipt for the same; provided that magazines or other reference books shall be returned whenever called for by the State Librarian.

2. Citizens who desire to draw books may do so through their local Public Library, or if no local library exists, then upon furnishing satisfactory guarantee for the care and return of the books borrowed. All expenses incurred in issuing and returning books shall be paid by the borrower.

3. Any Free Public Library or any College or University Library in Indiana may be registered with the Indiana State Library and thereby have the privilege of borrowing books from the State Library for its patrons.

4. An organized study club or literary club in any community where no Public Library exists, may by appointing one of its members as librarian for the club, and applying for registration, borrow books as may a registered Public Library, and all business between the club and the State Library must be conducted for the club by the librarian of the club.

5. No person shall borrow nor keep from the library more than two books at one time nor any book more than two weeks without renewal.

6. Renewals may be made unless a call is registered with the State Librarian for the same book before the expiration of the first loan period. When renewals are made they may be for two weeks.

7. Any book not returned within three days after it is due to be returned may be sent for at the borrower's expense, and the borrower shall pay a fine of five cents for each day the book is kept after it is due to be returned.

8. Any person failing to return a book within one week after it is due to be returned, or failing to pay any fine assessed against him, forfeits the privilege of the library until reinstated by the Board.

9. Any book not returned within two weeks after it is due to be returned shall be considered lost, and the borrower shall pay the full value of the book or of the set to which it belongs.

10. The State Library Board will determine (Sec. 9, Chap. 80, Acts 1903) what books may not be taken from the library.

Note.—A copy of this catalog will be sent to borrowers not already supplied.

INTRODUCTION.

This catalog does not include all the books in the library, but only those which have been reclassified, recataloged, and the additions from 1898 to October, 1903, except the State and U. S. publications.

Both the classification and the cataloging have been done with consideration to the needs of the State Library and its constituency. The Decimal system has been followed with a few modifications.

Attempt has been made to enter each book under author, subject and title, when the latter was specific. While including all in one alphabet clear distinction has been achieved by means of variation in type and indention. The surname of the author has been set in **blackface** type; the subjects in small CAPITALS, with the sub-heads in *italics;* the titles in the ordinary Roman. In case of anonymous books the first word not an article has been placed in blackface. When the author's name is enclosed in brackets it indicates that the work was published anonymously.

The class and book numbers are placed at the right hand margin following the entry. When the letter I is prefixed to the class number it indicates that the book is about Indiana, or by an Indiana author; an R in the same connection denotes a reference book.

The abbreviation I. S. L. signifies Indiana State Library; the others are self explanatory.

JENNIE ELROD,
Cataloger.

DICTIONARY CATALOG.

(Includes all books which have been reclassified and recataloged to October 1, 1903, and all additions to the library from 1898 to October 1, 1903, except State and U. S. publications)
